

Yesterday while driving back to Houston, I switched over to the traffic and weather report about 75 miles outside of Houston. Found that traffic was a mess on I-10 west side, so changed my route to arrive at my home with minimum of delays. Great service from XMSR. When I left Lafayette, LA earlier I had checked the Houston weather. Another great service from XMSR.

I urge the FCC to carefully consider and then reject NAB's petition 04-160. The FCC should support XM's ability to provide the kind of services that I pay for and demand.
